

Access Through Technology

Access Through Technology (ATT) is a small team of specialist teachers and support staff within Norfolk County Council's Children's Services. ATT work with schools across the county, providing assessment, equipment, advice, support and training for children, schools and parents/carers of children who benefit from using technology to communicate and to learn.

They work closely with occupational therapists, speech and language therapists, physiotherapists and sensory support teachers in whatever combination is appropriate for the individual child.

This twilight session will provide an introduction to the Access Through Technology Service, including:

- What the service offers
- The criteria for referrals
- How to make referrals

By the end of the session participants will:

- Be aware of the ATT service and what they offer. They will understand the criteria for referrals and how to make a referral if required.

Inclusion and SEND Learning Network

Audience:

SENCOs,
SEND Governors,
SEND Professionals
