

Collaborative Teaching in Maths and Science

Develop a collaborative approach between Maths and Science teachers and departments to establish supportive and cohesive methods.

Maths is taught across many different subjects in high school, not least in the Science department. Two teachers from each school (one Maths and one Science) work together to establish similarities and differences in approaches to help develop a cohesive approach for pupils. This training programme uses expertise from Maths and Science to consider how to improve the learning and outcomes for pupils by working together practically and collaboratively.

Dates

Session 1: Tuesday 1st November 2022

Session 2: Thursday 5th January 2023

Session 3: Tuesday 28th February 2023

Session 4: Wednesday 19th April 2023

Session 5: Wednesday 28th June 2023

All sessions will run online, 4pm-6pm
