

KS2: Moderator-led Assessment Networks

Outline

This is a series of 3 network events that together will support those who are experienced in and those new to Year 6, in making accurate assessments using the Teacher Assessment Frameworks. It is also intended to support the continued development of a strong network of Year 6 teachers within each locality.

Across the 3 events, we will discuss lessons learned from last academic year, highlight key points from the statutory guidance, unpick criteria in the frameworks, put the use of the standardisation exercises into practice and support inter-school professional moderation discussions.

Description:

The initial event will take the form of a briefing, online. This will be led by NCC KS2 lead moderators. The second and third events will be hosted by school-based moderators, in their schools. All moderators have been trained by the LA to lead these sessions, to ensure consistency of messages.

Key information will be disseminated to teachers over the three events, so it is vital that teachers attend all three dates. At each network event, moderators will brief teachers on key messages; use standardisation activities to develop understanding of the standards and the threshold between them; and facilitate discussions between teachers about judgements made using their own evidence bases.

The focus of the twilights will be:

- November – Briefing on lessons learned, key statutory information and preparation for the network meeting in January
- January – Writing attainment at WTS/EXS
- March - Writing attainment at EXS/GDS

Please note that colleagues will need to bring:

- January - An evidence base for 2 pupils for writing: one pupil who is on track to achieve EXS and a second who is on track to achieve WTS.
- March – An evidence base for 2 pupils for writing: one who is on track to achieve, or has achieved EXS and a second who is on track to or has achieved GDS.
