

Schools new to Angles Maths Hub are warmly welcomed and encouraged to attend.

All sessions are free of charge.

# Primary Mathematics CPD: Summer 1 Online Twilight Opportunities

Following on from our successful series of sessions earlier in the year, Angles Maths Hub is thrilled to be able to offer a continuation to both online, twilight series across Summer 1!

## Developing the Use of Representation in Primary Mathematics

Our new series continues to support teachers with using representation in primary mathematics classrooms across all primary phases.

For this series, session topics include:

- The power of Pattern Blocks
- The effective use of Place Value Counters
- Essential ways to use Beadstrings

Visit our Eventbrite page [here](#) for dates, times and details and to reserve your school's free place.

Each interactive session will include advice and guidance on the use of different representations and will also offer opportunities to question our team of experienced teachers, leaders and maths advisors.

## Understanding Mastery in Primary Mathematics

Led by Angles Maths Hub Mastery Specialists and Dr Debbie Morgan (NCETM Primary Director), our sessions continue to give teachers and leaders the opportunity to explore, share and refine teaching for mastery approaches. Sessions will include:

- Mixed age approaches in the Teaching for Mastery classroom
- Big 5 Ideas of Mastery, including NCETM Curriculum Prioritisation
- A lesson study of mastery style teaching and learning in our Specialists' schools

An ideal opportunity for schools new to Mastery or Angles Maths Hub to learn more about how to get involved in more of our free and funded CPD.

Visit our Eventbrite page [here](#) for dates, times and details and to reserve your school's free place.
