Assessment in Physical Education - Key Stages 3 and 4

This course will look at all aspects of assessment from a practical viewpoint. The course will attempt to demystify this area and provide a framework which teachers can use that complies with the demands of National Curriculum and integrates with the QCA Scheme of Work.

Candidates will be shown how effective management of assessment can lead to early identification of barriers to learning, gifted and talented pupils, and effective teaching styles/strategies. Benchmarking and value added will also be covered. Candidates will be shown a variety of different ways of formally assessing attainment and achievement as well as the county framework. HMI identified assessment at Key Stages 3 and 4 in PE as being the weakest of any subject area - this course is designed to counter that.

Please bring along any existing assessment material.
