

Inspiration TSH Newsletter

We're very pleased to confirm that the latest edition of the [Inspiration Teaching School Hub newsletter](#) is now available to read.

In this edition, we provide updates on ECT induction guidance and registration and the National Institute of Teaching's consultation on professional development.

If you'd like to know more about what we offer, please do not hesitate to contact us. Don't forget you can find regular updates from us on [our website](#), [Twitter](#) and [Facebook](#).

Early Career Framework

The DfE is strongly encouraging that schools opt for a provider-led programme for their Early Career Teachers as it is fully funded by the DfE, designed by national providers and delivered locally by Teaching School Hubs like us. Let's work together to give teachers at the start of their journey the best possible chance of a long, fulfilling and life-changing career.

Your school can sign up to our ECT programme [here](#). The DfE's '[manage training for early career teachers](#)' service will open for 23/24 registrations later this summer - they will contact you directly once they're ready to accept registrations for your September 2023 starters.

NPQ

Applications are open for the next cohort of NPQs in October 2023! You can apply to learn with us through the National Institute of Teaching (NlOT) [here](#). Rooted in schools, NlOT is dedicated to developing teachers and school leaders at every stage of their careers.

Want to know more?

If you would like some more information on any of our other offers, or if you would like to receive our regular communications, please email inspirationteachinghub@inspirationtrust.org or phone 01603 733446.
