

Wave 3 Intervention Conference

The Primary National Strategy has produced guidance and materials to help schools review and plan provision for children who experience significant difficulties in mathematics. These Wave 3 materials have been piloted in a small group of schools in Norfolk. This pilot has been supported by the Pupil Access and Support Service.

The aim of this conference is to:

- update delegates on national developments relating to implementing interventions for children with significant difficulties in mathematics.
- disseminate the findings of the Norfolk Pilot.
- explore the implications of these developments for schools.

This half-day conference is fully funded for one person from each primary phase school.
