

# Integrating Problem Solving into the Primary Mathematics Curriculum

The National Primary Strategy have produced some CPD materials for developing whole school approaches to learning and teaching Problem Solving in the mathematics curriculum. This course will draw upon this guidance and other materials to ensure that participants have a clear understanding of the range of different types of problems that children must be taught how to solve and the skills that they must be taught.

The course will be in two half-day sessions :  
24th May and 15th June 2005 Norwich Professional Development Centre - 5MN015  
26th May and 16th June 2005 West Norfolk Professional Development Centre - 5MN016

Participants will undertake a problem solving activity with their class between these sessions and discuss the outcomes in session 2.

Subject leaders who attend this course will, as an outcome of participating in this course, be able to use the Primary Strategy Problem Solving CPD materials with their own staff in their own school.

**Course Leader (s) :** Pete Yong & Jean Johnson

## Who should attend

Headteacher	<input checked="" type="radio"/>	Head of Dept.	<input checked="" type="radio"/>
Deputy Head	<input checked="" type="radio"/>	Classroom teacher	<input checked="" type="radio"/>
