

ACCESSIBILITY STRATEGY ONLINE

As part of Norfolk's determination to improve access for disabled pupils and to continue to support schools in fulfilling their legal responsibilities, new web pages are available on the Norfolk Esinet site.

Information for both parents and schools about the Special Educational Needs and Disability Act (2001) can be found at:

<http://www.norfolkesinet.org.uk/pages/viewpage.asp?uniqid=3649>

Information for families is in the Parent Zone, in the section 'Information on Norfolk Schools'. The page can also be accessed from the School Staff zone, in the section 'Projects and Events'.

Alternatively, look for 'Disability Discrimination Act' in the A-Z.

The pages allow you to view Norfolk's Accessibility Strategy, which outlines plans to improve access for disabled pupils to the physical environment, the curriculum and written information. There is information about what the law means in practical terms for both schools and families, and links to websites and local contact information about specific disabilities. There are also links to related policies and guidance from a variety of Government departments.

Whether you need guidance on preparing your School Access Plan, information about Cerebral Palsy, or are just interested in disability issues, then make this new resource a favourite on your computer.
