

Norfolk All Age Autism Strategy Refresh 2024

Introduction

The coproduced [Norfolk All Age Autism Strategy 2019 to 2024](#) needs to be refreshed. A wide range of partners in coproduction with the Norfolk Autism Partnership Board worked towards delivering the nine priorities:

Norfolk's first All Age Autism Strategy resulted in improvements to support autistic people across Norfolk, such as:

- greater awareness through coproduced autism training available to all
- a greater focus on working together and more autism schools.

But we know there is more that needs to be done to improve autistic peoples' lives.

We are looking to engage as many Autistic people and their carers as possible to ensure we have a full picture of the support needs and priorities of Autistic people in Norfolk.

This pack contains links to all the documents in both easy read and full versions as well as promotional material to support us in reaching as many Autistic people as possible.

- 1** Improve Understanding and Inclusion of Autism across the System and Within Society
- 2** Improve Positive Transitions into Adulthood
- 3** Supporting Autistic People into Education and Employment
- 4** Tackle Health and Care Inequalities for Autistic People
- 5** Building the Right Support and Supporting People in Inpatient Care.
- 6** Improve Support within the Criminal and Youth Justice System
