

Central Area SEN

As you may be aware, due to significant staffing shortages, the Central SEN department currently has a backlog of statements to be processed. Whilst we are committed to maintaining a good standard of service for all schools, children and families, we have had to make choices about how we can effectively manage this situation.

To this end, we shall be unable to provide Caseworker attendance at Annual Review meetings until the end of the summer term. For urgent cases, of course, please do not hesitate to contact us and we will aim to give you the best support possible. We appreciate your patience and cooperation during this period.

Please be reassured that this situation is temporary, as we have recently appointed two new Caseworkers, Pascal Fallas and Elizabeth O'Rourke. I will inform you of the contact details of the Caseworker who will be responsible for your school as soon as possible.

In the meantime please contact our support staff, Brenda Fuller (01603) 224010 or Dinah Rosembert (01603) 224015.
