**every child matters**  
a brighter future for Norfolk's young people

An exciting two day programme for Early Years Foundation Stage Practitioners in Norfolk. This learning and development programme is having huge impact on children's speaking and listening skills.

**Day 1** of the training includes a combination of input on theory, builds on existing good practice, 'hands-on' practical activities and then a reflection on what this means for delegates in their setting.

To help you put theory into practice you will receive support to complete some practical "development tasks". This support will be in-between the training days and in the form of visits to see you at work in your setting.

The emphasis will be on using a reflective, structured approach to establish a deeper understanding of how the physical environment impacts on children's speaking and listening skills.

**Day 2** involves feedback from the practical development tasks, reflection, sharing impact and future planning.

**Training Provider:** Elizabeth Jarman Ltd.

### **You must attend both sessions**

Settings interested in attending the 2 day course are strongly encouraged to enrol 2 practitioners.

Settings attending the 2 day course will also receive a £100 bursary (1 bursary per setting) to help support the practical development tasks.

## **2 day Communication Friendly Spaces training**

Code	Venue	Dates	Times
8578	Thetford, Keystone Innovation Centre	Thurs 15th Jan 09 & Tues 17th Mar 09	9:15am – 3:15pm 9:15am – 3:15pm
