CLASH! is a high impact production, providing an important focus for schools' anti-bullying campaigns. CLASH! allows schools to make a strong statement of non-tolerance towards bullying, whilst giving their students the chance to explore the issues, and the importance of their own role in combating it.

**CLASH! is about people who suffer bullying
because they are different.**

Tony gets it from all sides - and he's at the limits of his endurance. Why does he get picked on? How can he stop the beatings from the school bully Brandon? How can he tell people he's had enough? How is he going to face his new girlfriend? CLASH! is a two-person play exploring the horrors of bullying and victimisation. It charts Tony's journey through reality and fantasy, as he searches for an end to the terror. This show is powerful with elements of humour and has a fusion of styles including song, dance and storytelling.

The CLASH! Workshop

How can Tony liberate himself? The play offers no solutions. Instead we ask the audience to join us in exploring some of the paths that Tony can choose to take, and give them a chance to confront his situation creatively. The message that we are all responsible for the struggle against bullying is central.
