

Maths Subject Leader Cluster Meetings Summer Term 2007

A number of the cluster meetings planned for the Spring Term did not run due to insufficient numbers. With this in mind those that have been arranged for the Summer Term will only run if sufficient replies, a minimum of 5 attendees, are received to ensure numbers are viable for each of these sessions.

The response to the Summer Term sessions will be used when reviewing the planned sessions from September 07 onwards.

Everyone who would like to attend one of the cluster meetings in the Summer Term must contact the host school to indicate they will be attending.

This information is imperative to ensure these sessions will run if there is sufficient interest.

Each delegate is asked to bring their favourite website address(es) with them as the websites will be looked at during the Summer Term sessions.

Host Schools Please Note: a room with internet access must be available for use.

If any further information is required please do not hesitate to contact Micky Harcourt-Heath at micky.harcourt-heath@norfolk.gov.uk
