

A Game of Two Halves

What is it?- Aimed at more able and talented pupils, Game of Two Halves is a full day of activities split between Norwich FC's brand-new Community Sports Facility Carrow Park and the excellently resourced Study Centre situated within Carrow Road itself.

How will it benefit my pupils?- The day will offer extension and enrichment to P.E., Citizenship, English and Maths. Through dynamic and complex mental and physical challenges, pupils will extend their effective team-work skills, and will develop a passion for problem solving.

What will the day entail?- The session at Carrow Park will be run by a qualified *Football In The Community* Sports Coach. Pupils will take part in fun co-ordination improving activities before being challenged, in groups, with planning and delivering a coaching session on a specific football skill.

The session in the Study Centre will challenge pupils to demonstrate higher levels of thinking, and present sophisticated responses to a real problem. Working to a tight budget they will take on real job-roles and plan a music-concert at Carrow Road. .

NCFC Gifted & Talented Days

Include:

- A 90 minute session with a qualified Football Coach.
- A Session in the NCFC Study-Centre that promotes negotiation and higher-order thinking skills.
- Sessions that develop Key-Skills in communication, working with others and problem solving.
- Chance to interact with and learn from people who work at Carrow Road.
- A tour of the stadium.
- Sessions that could provide high-quality evidence for a Nationally Accredited Personal Achievement Award.

A *Game of Two Halves* will help you to meet the National Quality Standards for Gifted and Talented Education.

A *Game of Two Halves* day costs £250 for up to 50 students.
