

***Invitation to Teachers' Preview
of 'Buried Treasure' at
Norwich Castle Museum and Art Gallery***

About the exhibition

Norwich Castle's new exhibition, 'Buried Treasure' displays some of Britain's most important and stunning archaeological treasures from the British Museum and other museums across Britain. These are brought together for the first time in a spectacular display with a difference. Almost all of the precious finds were discovered by chance – by farmers, beachcombers and metal detector users.

The exhibition starts 22 July 2005 and finishes 15 January 2006.

About the Education Programme

There is an extensive programme of events - for all Key Stages & focusing on a range of subject areas - history, archaeology & art.
