Dear Colleague

Re: 2005 Annual Conference for Physical Education – Secondary

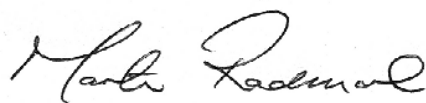

I would like to give all colleagues advance notification of next year's annual physical education conference, to be held on July 15, 2005. I am delighted to say that it will be free to attend next year. This is because the LEA has secured the funding to arrange this important piece of CPD and networking on your behalf. This year's conference was a big success with half the high schools in attendance – next year we need all of you to attend, so please put it in your diary.

Conference 2004 focussed on Teaching and Learning, with inputs on standards, accelerated learning and effective use of ICT. Colleagues who attended were particularly interested in MotionCoach – an analysis of performance programme. The LEA will have access to a full working copy of the programme and colleagues are welcome to ask me to come into their school and give them access to this. It is highly likely that this programme will become the one which as an LEA we will move forward with.

Conference 2005 will follow on from the Play, Physical Activity and Physical Education exhibition (12th July); this will be open throughout the day for colleagues to browse as well as for schools to send a colleague to interact with the exhibitors, including primary and middle colleagues. If there are particular products or companies that you would welcome, then please contact me so that we can arrange this. There will be workshops throughout the day on the 12th July, so look out for these and book early to avoid disappointment.

I very much look forward to working with you over the coming year and to welcoming you all to Conference 2005, July 15.

Yours sincerely

Martin Radmore
County Adviser for Physical Education
