

As part of our 2007 Love your Library campaign we are encouraging everyone to think about the environment - to reduce, reuse and recycle.

You can even help save the planet by visiting your local library. Why buy when you can borrow the latest bestseller or DVD?

The campaign runs from Valentine's Day until the end of March, and if you borrow from us during the six-week promotion, you'll automatically be entered into our green prize draw. We have wildlife memberships, a local food hamper and inspirational green books to be won.

We are also running a junk art competition and inviting school children to design something made from recycled items. Make whatever you like ...jewellery, spaceships, clothes, or pictures. Once you are happy with your design take it along to your local library with an entry form. The winning design will be displayed in the library with a photograph on the County Council website. Some libraries will also be hosting special open evening to view local entries.

Closing date 15th March 2007. The winner will be announced 31st March 2007.

The entry form can be found at:
