It is well worth visiting Sport England on their web-site - www.sportengland.org

The sports gateway provides access to a searchable database of sporting contacts. It puts you in touch with the leading sports organisations and people in your area to contact about learning, improving and taking part in sport. Choose from an A-Z listing of sports or search for sports facilities and sporting contacts in your area. The sports gateway puts people working in sport in touch with the national and regional contacts in governing bodies of sport, leisure departments, local authorities and other key sporting organisations.

If you need more information on sports related topics, the sports gateway can provide you with details of an organisation to contact.

In addition, by using the drop down menu at the top of each page, you can connect to the websites of governing bodies and other organisations concerned with the promotion, development and administration of sport in England. We have also provided links to the websites of upcoming major sporting events; international sports organisations and overseas national sports organisations. Click on “Sports Gateway” then “Begin Gateway Search”.
