

# Death is an emotional and sensitive subject

Although it is difficult to talk about, we need your help to understand how we can improve services in Norfolk.

What is a good death?

How do you expect to be looked after at the end of your life?

Have you cared for a loved one?

Have you a story to tell which will help us understand what we should do better?

## Please let us know

There are lots of ways to take part, from filling in a questionnaire, talking to us or taking part in a group discussion.

**Telephone 01603 223484**

Speak to **Sue Spooner** to find out more about the research and how you can participate. Or you can email [sue.spooner@norfolk.gov.uk](mailto:sue.spooner@norfolk.gov.uk) and Sue will get back in touch with you.

*We want you to be as honest as possible. We assure you that your contact and input will be treated in the strictest confidence and reported anonymously.*

THIS PROJECT IS BEING CARRIED OUT FOR THE NORFOLK HEALTH OVERVIEW AND SCRUTINY COMMITTEE

**Norfolk** County Council
