

E Profile Training

the electronic version of Foundation Stage Profile

To book your place,
please complete and
return the form attached.

every **child** matters
a brighter future for Norfolk's young people

This twilight course is designed to:

- help practitioners and headteachers who would like to use the electronic version of the Foundation Stage Profile known as e-profile
- view the powerful potential of using the e-profile through the year to measure pupil progress
- see the range of data and information that may be used for school improvement
- view the reports that it can produce.

There will be information on how school systems will enable easy transfer of information into and from the e-profile. You will also have the opportunity to talk to an Early Years Practitioner who already uses e-profile.
