

New arrangements for dealing with transport in the Passenger Transport Unit (PTU)

From Monday 16th June, each school will have one contact number for a member of the PTU's network team, who organise the transport to and from school. (Previously there was one number for the taxis and minibuses and one for the big buses).

The numbers are as follows. They are for queries about the actual transport arrangements – queries about eligibility and payments should be addressed to the PTU Customer Service Team 01603 223800.

Only the high and special schools, and colleges, are listed – primary age schools should use the number for their catchment high school:
