Objectives:

Delegates will explore, with others, different ways of increasing the numbers of pupils having school meals. There will be the opportunity to develop ideas with others and to learn about successful ways of working from other Norfolk schools. This includes examples from primary schools who are with a catering provider and those are doing in-house catering. Delegates will be given resources to help them work with children and parents in their own school.

This training event will also help schools working towards the Healthy Eating criteria of national Healthy Schools Status.
