

To all Headteachers of Schools with **Sixth Forms**

Higher Education Student Support Making it Clear

Do you have sixth form students who would like advice and information about financial support for Higher Education?

The Student Support Department is offering to provide guidance and practical assistance.

Experienced members of our Team are available to come and give a talk with visual aids (for about 25 minutes) followed by a question and answer session for groups of students applying for or considering entry to higher education. This would be backed up with examples of the forms used and the information required.

Our aim is to make the process as simple and straightforward as possible by providing clear guidance about financial help available to Higher Education students and how to obtain it, based on the most up to date information which is available.

We are offering this service between 3rd February and 14th March 2003 to coincide as closely as possible with the period when students applying for entry in 2003 will be receiving and filling in their financial support application forms. It is expected that supplies of forms will be distributed to schools and colleges in early February as usual.

If you would like more information please call on 01603 222439 and ask for Miss Jay or e-mail studentsupport.edu@norfolk.gov.uk.

As in previous years we would also welcome the opportunity to talk to parents at Higher Education Seminars and similar events later in the year.
