

Give Children a Voice on Child Labour Day 2005!

The 12th June is the fourth annual World Day Against Child Labour, centred around children employed in mining and quarrying.

What is your school or community group doing for World Day Against Child Labour?

Please visit www.scream-manchester.org.uk to download an information and education pack for teachers, full of ideas and activities to open the eyes of children in your group to the lives of millions of child labourers across the world in the run up to WDACL 2005.

The pack is produced by the International Labour Organization and is suitable for primary, junior, and lower comprehensive school age children.

Please contact james@scream-manchester.org.uk with any queries.

Thank you!

James Lambert
