Dear Teacher

### **Craft workshops, books and training**

At this time of year there's so much to think about. Craft activities may not figure prominently now, but as the term moves towards the Christmas season you'll be looking for practical ideas and projects that work.

**That's where The Craft Teacher can help you, by saving you time, energy and resources.**

As well as a range of practical **ideas days**, **Open College Network Level 2 courses and training**, we have recently published a range of teaching resources to help you with your activity planning and delivery.

In our **50 ways to** series you'll find 50 step-by-step double page layouts on a host of activities. We currently have two publications available: **Christmas Crafts**, (which is perfect for seasonal ideas) and **Papercrafts**. **50 ways to ... Easter** will be published in January 2006. We also offer a comprehensive range of **teaching manuals** featuring notes, session plans, checklists and designs.

**The Craft Teacher creates resources for everyone in a variety of formats.**

We'll be at the **Special Needs Exhibition, The Sports Village, Norwich** on Tuesday **October 11<sup>th</sup>, 2005 (9am - 5pm)** and you'll be able to see some demonstrations of projects from our current range. Come and talk to us about your crafting needs and pick up some information, or if you prefer us to visit your school, please get in touch.

We look forward to meeting you soon.

**Activities matter. Make yours ones they talk about.**

*Geraldine Jozefiak*
