## Zoolab UK

Our company visit children from the age of 3 to 18yrs of age. Our live animal workshops are all curriculum based. With the science curriculum we bring along spiders, snakes, giant African snails and many more, which the children can handle and explore. We cover topics such as minibeasts, rainforest, classifications and endangered animals to name but a few.

We are currently offering Norfolk schools a full day at  $\pounds160+vat$ , which would normally be  $\pounds245$ . This is for October only. We can see up to 175 pupils in a full day.

If you require anymore info please call heather on 01324 811531
