

competition

Design and build a model eco-friendly house

To Enter - design and make a model of an eco-friendly house. Your model should fit inside a standard-sized grocery box (approx 50 x 50 x 50 centimetres). **Try to include** as many 'eco-friendly' features as you can. Think about how your house will be energy and water efficient and how you can use recycled materials. **Win** an individual prize and a prize for your school. **Rules** - the competition is run by the National Trust and with the support of North Norfolk District Council. You must live or go to school in North Norfolk to be eligible to compete. The competition will be judged in age categories – please state your age with your entry. **Deadline** for entries is 31st March 2006 **Further details** and application forms from Rob Coleman on **01263 820550** or **rob.coleman@nationaltrust.org.uk**

Best Entries will be displayed at the Green Build Event at Sheringham Park on 29th and 30th of April 2006
