Dear Teacher,

**Do you and your class long to escape the classroom?**

**Why not try RSPB Living Classrooms at Whitlingham Country Park, Norwich**

Our programmes include:

**First Nature for 5-8 year olds**

**Second Nature for 8-12 year olds.**

Whitlingham Country Park is only 2 miles from the City centre and has a fantastic range of habitats and wildlife.

Our experienced team of professional field teachers aim to make your visit as exciting and rewarding for the children and teachers as possible. We have a spacious indoor classroom and a huge range of resources.

Our programmes help children gain first-hand experience of natural places, creatures and habitats through a series of innovative sensory activities, also including pond dipping, minibeast safaris and birdwatching. All our activities are risk assessed, curriculum-linked and carefully designed to complement the work done in schools.

Our programme can be tailor made to meet your specific curricular needs.

This autumn we are offering a 20% discount on bookings to entice you out of the classroom! For further information or an informal chat about a programme to suit your needs please contact Tina Anderson, Lead Field Teacher on 01603 429901.
