

## **Share your stories of learner voice initiatives**

Futurelab has recently been commissioned by Becta to carry out an Educational Review on learner engagement. The heart of this review will be to use examples of learner voice initiatives in order to categorise them into levels of learner voice participation e.g. consultation, involvement, collaboration and empowerment. We are particularly interested in learner voice initiatives that have raised the voice of traditionally underrepresented learners. Use of tools, such as digital technologies to engage with learner voice is also of interest, although not necessary. Furthermore, the scope of this review is across all educational sectors up to and including HE/FE.

If you have any vignettes you are happy to share with us and are prepared to have published in a final Becta publication please email your stories to [leila.walker@futurelab.org.uk](mailto:leila.walker@futurelab.org.uk) by the 7<sup>th</sup> March 2008.
