

Support RNIB

In 2009 help RNIB to celebrate 200 years since the birth of Louis Braille.

His legacy of the braille system of reading ('dots' which represent the letters of the alphabet) has enabled thousands of blind children and adults worldwide to experience the joy of reading.

Will you support RNIB and celebrate braille during 2009?

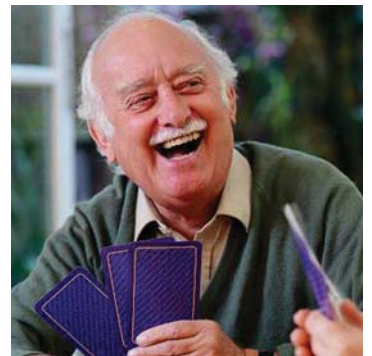

RNIB is the UK's leading sight loss charity and Europe's largest producer of braille.

Donate £1 to RNIB and wear something dotty or spotty on the date of your choice.

Thank you for making a difference to people with sight loss
