

September 2002

F.A.O. : Head of Mathematics / Co-ordinator of Mathematics

Dear colleague,

The Autumn term is under way again, and the Norfolk Branch of *The Mathematical Association* has its programme of meetings and events for the forthcoming academic year already published. Our complete programme can be found on the national web-site at [www.m-a.org.uk](http://www.m-a.org.uk). As usual, though, may I take this opportunity to highlight this term's two main events?

THURSDAY 26<sup>th</sup> SEPTEMBER 4.30 pm  
Notre Dame High School, Surrey Street, Norwich  
(Directions are available if required)

***'AS LEVELS UPDATE'***

A presentation, followed by questions and answers, given by

**Karen Hughes**  
of the  
**Edexcel Examinations Board**

This promises to be a very interesting and stimulating meeting, with an opportunity for you to hear about various aspects of the A1 examinations from the perspective of an examinations board, and for you to be able to put your questions and air your concerns to someone directly involved in the assessment process.

[There is no necessity to book for this meeting. All are welcome. There is no charge for members and only a small charge for non-members. As with all events, it is possible to join the Association at the meeting.]

---

WEDNESDAY 13<sup>th</sup> NOVEMBER 2.00 pm  
UEA Lecture Theatre 1  
THE ANNUAL SIXTH FORM LECTURE

***'WHAT'S THE USE OF CHAOS?'***

given by

**Professor Chris. Budd of University of Bath**

**Further details and a booking reply slip will be published later in the term as usual**

---

Best wishes for the term,

Administration Secretary
