

School Program

Autumn & Winter 2002/3

Education Officer - Stuart Hall
The Green Quay, Marriotts Warehouse,
South Quay, King's Lynn,
Norfolk PE30 5DT
Telephone 01553 818500

Wash. We offer a teacher-led program that introduces the children to seashore life as they learn through painting, first words, counting & puzzles.

Story Time

Eric Carle's 'A new Home for Hermit Crab'. Bring the children for an easy afternoon or morning learning about Hermit Crabs and their environment. Lots of art & craft to make beautiful collage work to take back to school!

KS1 & KS2

Mud & Migration!

The Wash is home to many special sea birds that visit us in the winter time. Your pupils will learn how this estuarine environment has been created, the importance of sustaining it, how to tell birds apart, put them in to groups and how to hold and use binoculars. An interesting way of achieving Geography 'patterns & process' and Science 'adaptation'.

Tudor Time Machine

Come and examine the fine Tudor building that is the Green Quay. A visit that explores the stone and brick work of our warehouse and takes your pupils on a journey through time linking in to local history events. Your pupils will soon see how the Green Quay is a re-cycled building and we'll show them how to re-cycle their modern day rubbish as well!

What can we measure?

KS2 Maths fun! How can we measure the environment? What could we measure? Why is it important to measure the environment? A selection of maths activities for key stage 2 pupils using discussion, instruments, graphs, pie charts, and estimation skills.

Creeping Crustaceans!

A look at the animal families & food chains of The Wash! How animals move, feed and have adapted to this special marine environment. An opportunity for children to recognise and compare the external parts of animal bodies. Science links to 'Variation and Classification'.

and discuss how we may compliment your curriculum objectives further.

Prices are £2.00 per pupil for a two hour session. The Green Quay may be used for your pupils lunch stop! A full days visit is priced at £3.00 per pupil. One in every ten places are free! Teachers & Helpers are free! All resources and use of the centre's equipment is free!

DOW CHEMICAL is pleased to sponsor half price admissions for King's Lynn and Western Area Schools making your visit a crabs pinch from £1.00 per pupil! Another good reason to visit.

Coaches

There is a drop off point directly opposite the centre but no on site parking. A town map out lining directions for The Green Quay, instructions for coach drivers and coach parking sites will be issued with each booking. Thank You.

Accommodation is also available next door at the Youth Hostel for longer visits.

The Green Quay can be visited at:
