Dear Colleagues

Norfolk Educational Psychology Service and Harford Manor School would like to initiate a conference for Practitioners who provide services to children, young people and adults with Autism in Norfolk.

The venue will be Harford Manor School

Date: Saturday 18th January 2003

Time: 9.00 am til 1.00 pm

At this initial stage we would like to gauge interest. An Autistic Spectrum Disorder Steering Group has been formed and one of the issues which has arisen is the isolation in which professionals often work – this would be an attempt to move forward with a network of practitioners who could share successful practice, strategies and positive intervention across the spectrum of Autism. I hope you will be able to commit to this initial meeting. If you know of other practitioners who may be interested in attending a meeting such as this please copy this letter and pass it on.

We hope we can gain enough support to proceed.

Yours sincerely

Geoff Kitchen
Headteacher
