Getting it Sorted

>GETTING IT SORTED<

Start Talking Rubbish Competition

Did you know that every year councils in the Anglia region spend more than £150 million collecting and disposing of household rubbish? One third of this rubbish could easily be recycled.

Did you know that we need to encourage people to use their recycling facilities and that we need your help to do it?

Did you know that this year's Slim Your Bin campaign has an associated School's Competition that is fun to enter with great cash prizes for your school?

Start Talking Rubbish

The competition is very flexible so that this activity can fit in with the plans you already have for your own class. The deadline for entries is not until Friday April 11th 2003 so you have plenty of time and it is open to all the Key Stages and to A level age students!

We want your ideas to get people across your area recycling more. We'd like you to think of an exciting way to promote recycling to the people who live in your area. There are lots of options open to you. Here are some ideas to get you thinking: poems, stories, plays, radio jingles, fashion, design to go on a bag for life carrier bag, game, sculpture, web pages, design for a bus advertisement panel, song, rap, pottery, furniture, screen savers, newsletter, newspaper article, mural, plan for a piece of land, garden, community service announcement for TV, cinema adverts, design for free postcards.....
The list is endless so let your imagination run wild!

Formats for the submission of entries can include videos, photographs, CDs, floppy disks, paper, cassettes, artwork – in fact anything that can be posted!

The competition is open to all schools in the Anglia Region. There will be county winners who will then have the opportunity to go into the Regional final.

For more in depth information on competition guidelines, categories, prizes, entry forms and submission requirements please refer to www.angliatv.com/recycling or refer to the leaflet that was sent to your school at the end of the summer term. For more information on Slim Your Bin please visit www.slimyourbin.org

We look forward to hearing from you soon and good luck!

'Getting it Sorted' is a partnership between councils in the Anglia Region, supported by Anglia TV and sponsored by
