

Things That Go Bump In The Night!

An Early Years Event

**At The Castle Museum
on October 9, 10, 16, 17
Times: 10am - 12noon**

Why not join us at the Castle Museum for our new, fun packed event for Early Year groups? The theme of the activities is light and dark, and is designed to give the children a head start with the Foundation Stage curriculum.

The groups will be able to take part in a wide range of educational activities, which will develop their imaginations and knowledge of the past. They can explore the history of the castle in a creative, safe environment.

The activities include

- looking at some night time creatures in the galleries
- making their own night-time eyes
- exploring moon and sunlight in pictures around the museum
- making their own beautiful, shimmery light picture
- an exploration through the ancient Castle keep to find out where people in the past slept
- learning a night time song to sing together
