

## **21st Century learning in the Key Stage 4 RE classroom**

Thursday 3<sup>rd</sup> December Thorpe St Andrew School Management suite, Norwich. 10:15am-3:30pm

*This isn't just another INSET. Part of my role is to share good practice with you on this day, but my role goes further than that, giving you a days "learning visit" for free, online networking and an open invitation to come to my department and share our resources and skills. There are also guests from other organisations in attendance to provide ideas for new learning opportunities.*

### **Who should attend?**

RE teachers and leaders who want new ideas to improve results at KS4, or who would like some advice on meeting statutory requirements with all the other demands of the National Curriculum and syllabus content.

### **What is the day going to offer me?**

During the day we will cover specific examples of how to meet the needs of the 21st Century learner. There will be Schemes of work to view, teaching and learning ideas and strategies as well as examples of how to embed PLTS and SEAL into your Schemes of Work and the learning that goes on in your classroom. There will also be practical demonstrations of ICT use in RE.

Guest speakers include, Greg Dewar, AST and examiner at OCR, Janet Marshall, Education officer The Shrine of Our Lady of Walsingham, Kathryn Wright, Adviser for RE in Norfolk, and a speaker from Christian Aid.

You will leave with all the resources on a pen drive, some extra ideas and help from my department at Thorpe. With such an excellent and unique opportunity to network, get new resources and touch on so many of the current issues in education, what are you waiting for? Booking details below.

### **Quotes from laSt year's seminar:**

"A useful and informative day, Thanks very much."

"I will try out some of the ideas and be more adventurous."

"I hope I find the courage to leave the safe old ways more often."

"Excellent, loads of new ideas!"
